

Curriculum Vitae

THAPELO EDWARD MAKILE

Business Analyst Candidate | Potchefstroom, South Africa | 079 707 9559 |
thapelo.makile@gmail.com / thapelo.makile@nwu.ac.za

Professional Profile

Dynamic and solutions driven **Business Analyst** with over **15 years' experience** delivering large scale IT solutions, leading digital transformation, and driving optimisation across complex business environments in higher education, public, and private sectors. Demonstrated expertise in **solution development, business process analysis, requirements engineering, stakeholder engagement, cybersecurity compliance, project management, and change management**. Recognised for building strong relationships with technical and non-technical stakeholders, translating business needs into functional system solutions, and ensuring successful end-to-end project implementation using methodologies such as **Agile/Scrum**. Adept at aligning technology with business strategy, promoting innovation, and improving efficiencies, quality and service delivery. A strategic thinker with hands-on experience in **web systems, system administration, cloud technologies, AI technologies, data-driven problem solving, and enterprise collaboration platforms**. Committed to best practices, continuous improvement, and delivering business value through technology.

Core Competencies

- Business Analysis & Requirements Engineering
- Business Process Modelling & Optimisation
- Solution Architecture Support & System Integration
- IT Project Management & Agile/Scrum Delivery
- Stakeholder Engagement & Communication
- Change Management & Organisational Readiness
- Cybersecurity Compliance & Awareness
- Quality Assurance, Testing & Acceptance Criteria
- Data Migration, Reporting & System Documentation
- Web Development (Drupal, HTML, CSS, WordPress)
- Systems Administration (Linux, Windows, MySQL, MSSQL)
- Cloud & Microsoft 365 (Teams, Exchange)
- Incident & Problem Management (ITIL-aligned)
- Cross-functional Team Leadership & Mentorship
- AI Tools & Digital Innovation

Professional Experience

Business Analyst

North West University | Feb 2022 – Present

Key Achievements & Responsibilities:

Curriculum Vitae

- Manage end-to-end **business analysis**, requirements gathering, feasibility assessments, and gap analysis for institutional IT solutions.
- Lead **large-scale solution implementations** including web platforms, AI tools, digital communication systems, and cybersecurity technologies.
- Drive **stakeholder engagement** across faculties, departments, senior management, and IT units.
- Analyse and optimise business processes to reduce risk, improve efficiency, and enhance service delivery.
- Develop **functional specifications, solution documentation, process maps, test plans, UAT frameworks, and implementation roadmaps**.
- Lead **Cybersecurity Awareness Campaigns**, training, and compliance initiatives.
- Support **change management**, reducing resistance and preparing affected teams for new systems.
- Work on simultaneous cross-environment projects while meeting strict deadlines.
- Provide technical oversight in relational databases, JavaScript, system integrations, and QA principles.

Systems Administrator

North West University | Feb 2019 – Jan 2022

- Administered and supported enterprise systems (Linux, Windows, MySQL, MSSQL).
- Managed system installations, decommissioning, and virtualisation technologies (VMware).
- Automated processes using Ansible, Bash, and configuration management tools.
- Supported rollout of applications (Apache, Tomcat, JBoss, IIS).
- Monitored capacity and system performance using Nagios.
- Provided after-hours and emergency support.

IT Consultant

North West University | Jul 2016 – Jan 2019

- Service desk support (remote, telephonic, email, on-site).
- Incident troubleshooting, OS and application support.
- Supported analogue telephony and IT infrastructure.
- Assisted with internal IT projects and **training of junior staff**.

Senior Helpdesk Engineer

LivingTech | Aug 2015 – Jun 2016

- **Led helpdesk operations and managed support teams.**
- Provided server, desktop and network support (remote & onsite).
- Oversaw IT projects, backups, firewalls, internet/WiFi troubleshooting.
- Conducted capacity monitoring using SolarWinds N-Central.

Senior Technical Support

WebAfrica | Mar 2012 – Jul 2015

- Led advanced support teams and handled escalations.
- Managed domain/DNS queries, SSL, website hosting environments.

Curriculum Vitae

- Troubleshoot email routing, MX records, and database connectivity.
- Provided support for CMS platforms (WordPress, Joomla), HTML, PHP, ASP, .NET and SQL

Vesta Technical Services

IT Technician | Jan 2010 – Feb 2012

- Provided desktop, server, printer, and network support.
- Maintained systems and handled user support and troubleshooting.

IT Support Intern

JB Marks Municipality | Jan 2009 – Dec 2009

- Supported desktop, networking and server environments.
- Managed service desk tickets and provided technical support.
